

AI WORKFORCE ENABLEMENT LAB

Build an AI-ready workforce from the inside out

Even the most advanced AI strategy can stall without employee confidence and capability. The **Workforce AI Enablement Lab** is a customized program—typically delivered over 12 to 16 weeks—designed to equip your teams with the skills, tools, and mindset needed to embrace AI. Through persona-based training, hands-on experimentation, and strategic enablement, we help your organization foster a culture that's ready to partner with AI, not resist it.

-  **Duration:** Custom program (12-16 weeks typical)
-  **Designed for:** Organization workforce
-  **Theme:** Building Cultural Readiness & AI Capabilities

WHAT WE DELIVER

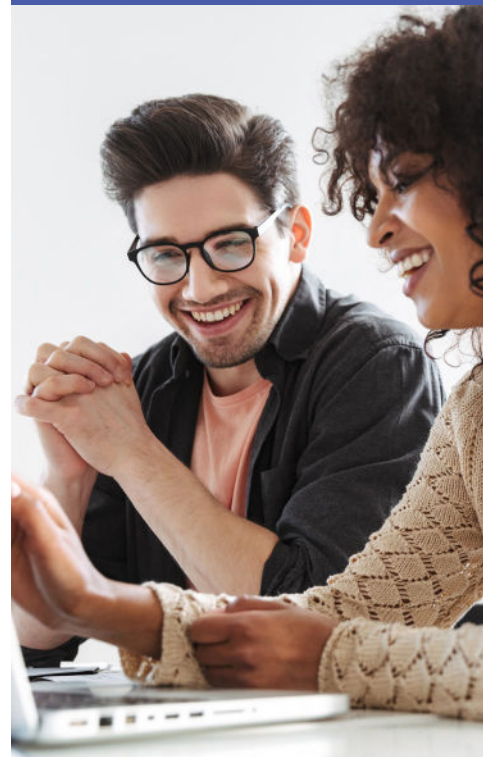

- **Baseline Workforce AI Assessment:** Evaluate your team's current AI literacy, adoption readiness, and the potential impacts of AI on existing roles and processes.
- **Tailored Enablement Strategy:** Develop a flexible AI workforce strategy customized to your organization's personas, with dynamic training and communication plans adaptable to emerging technologies.
- **AI Literacy & Capability Bootcamp:** Implement practical, foundational training sessions covering essential AI concepts (Generative AI, Agentic AI) tailored to diverse roles across your organization.
- **Persona-Based Training Paths:** Design customized learning journeys for key business functions (sales, HR, finance, engineering, etc.) leveraging best-in-class enterprise AI platforms like Microsoft Copilot and ChatGPT Enterprise.
- **Hands-On AI Experimentation:** Foster active engagement and confidence through experiential learning opportunities and ongoing knowledge-sharing platforms.
- **AI Adoption Playbooks & Metrics:** Provide role-specific adoption resources, engagement materials, and clear metrics to guide broader talent strategies, including workforce planning and hiring.

WHAT YOU RECEIVE

A trained, AI-enabled workforce equipped with tailored adoption plans, comprehensive enablement kits, and strategic insights to inform your organization's future talent decisions.

Workers who actively use AI report saving about **5.4% of their work hours** – roughly **2+ hours per 40-hour work week**.
