

# RESPONSIBLE AI GOVERNANCE BOOTCAMP

## Lay the foundation for responsible, scalable AI adoption

AI innovation brings opportunity—and also risk. The **Responsible AI Governance Bootcamp** is an 8–12 week engagement designed to help enterprise leaders establish the guardrails needed to move fast without creating liability. Through practical frameworks, strategic alignment, and hands-on enablement, we help your teams embed responsible AI practices that meet regulatory standards and build long-term trust.

-  **Duration:** 8–12 weeks
-  **Designed for:** Executive Leadership, Legal, Compliance, Risk, Data Governance, IT Security
-  **Theme:** Strategic Trust & Risk Mitigation for AI

## WHAT WE DELIVER

- **Strategic AI Governance Framework:** Define clear standards and policies to enable responsible AI innovation aligned to regulatory and stakeholder expectations.
- **AI Vendor Risk Assessment:** Design structured processes for evaluating vendor AI solutions to ensure compliance, security, and organizational fit.
- **AI Security & Privacy Controls:** Implement critical security tools, including role-based access, AI interaction logging, and real-time moderation to protect sensitive data.
- **Employee Responsible AI Training:** Launch tailored training programs covering bias awareness, hallucination prevention, and AI security best practices.
- **Incident Response & Risk Management Protocols:** Develop clearly defined procedures to rapidly identify, escalate, and mitigate AI-related risks.
- **AI Center of Excellence Roadmap:** Create a detailed strategy for sustained governance maturity, continuous risk management, and responsible AI oversight.

## WHAT YOU RECEIVE

A comprehensive AI governance playbook, supported by actionable security controls, employee training materials, vendor risk frameworks, and a strategic roadmap to operationalize your AI Center of Excellence.

Over one-third of CEOs say they've **had AI projects delayed (37%)**—and others **canceled (32%)**—due to **regulatory uncertainty**.
